Project Information *(continued)*

Describe how the project builds neighborhood cooperation. How were properties notified? Is the neighborhood in support? Were there any concerns or opposition?

Our beautification project have already empowered neighbors to work together by engaging in the neighborhood beautification process. It is amazing to see the community spirit and pride as neighbors await the completion of the project. Once completed, it will continue to build strong relationships around our community-driven initiative. We have had several neighborhood meetings regarding our beautification project and they have garnered overwhelming responses regarding from residents. They approved the project, contributed to the project and are extremely excited as we eagerly awaits the completion. As a result, neighbors are collaborating with each other and creating excellence within our neighborhood. The only concern voiced were connected to the cost of the project. However, when it was communicated to residents the maximum amount of money each resident would have to contribute to the project, it alleviated those concerns.

Project schedule:

The project is scheduled to be completed by January 2018.

Describe any partners in this plan, financially or otherwise:

The residents of the Hidden Lakes community are all partners in this project, which is evident by its approval.

Describe the long-term plan for maintaining and/or repairing any improvements made through this project:

We are committed to a long-term and on-going maintenance plan. The responsibility of continual improvements will be governed by the Hidden Lakes board of directors. When improvements or repairs are needed, it is the responsibility of the board to use general funds for all applicable improvements or repairs. In addition, contracted services will be responsible for ensuring the landscape is always professionally done and represent the beauty of the community and the city.

How will you evaluate success of the project?

The success of the project will be measured by the fulfillment of all aspects of the plan and when the project is completed, it is at or under the projected budget.

If the neighborhood has an approved neighborhood plan, how does this project fit within the goals of that plan?

Actually, this project is our overall neighborhood plan. We are constantly seeking ways to keep our neighborhood beautiful and in accordance with the city's comprehensive beautification and sustainability plan. Moreover, when residents are happy where they live and take pride in their community, then it contributes to the overall economic success of the city, whereby Cedar Hill will continue to be an exceptional city for all residents to live, work and play.

NEIGHBORHOOD SUPPORT PETITION

Use this petition to gauge support of neighborhood residents for the project. Make sure that those signing clearly understand the details of your project. Be sure to include owners and renters.

Project Description and Purpose: Hidden Lakes Entrance Beautification Project

The Hidden Lakes beautification project will enhance the front entrance signage to our neighborhood. The current signage will be removed and replaced with a new signage to include more embellished and artistically lettering and include redesigned and upgrade stone work and enhancements. The landscaping around the signage will also be enhanced to include an irrigation system for a more inviting entrance and make our neighborhood more exquisite. In addition, as part of the comprehensive beautification project, we will also install cameras at the front entrance of our neighborhood which will improve safety, thereby, collectively creating a sense of pride in our community and provide an

Explain how your project serves a public purpose:

☐☐☐☐

The beautification project will encourage neighborhood spirit, socialization and pride in our community, thus creating a community of friendship, collaboration and volunteer action for the benefit of the neighborhood. The project will build stronger relationships around a community-driven initiative. Consequently, residents will feel safer with the installation of cameras at the main entrance, because they will deter criminal activities in our neighborhood.

Project location:

Will your project require the approval of a permit from the City of Cedar Hill?

☐

Yes

☐

No

If yes, please explain, including any preliminary conversations with City staff, including staff names and departments:

We have already secured all applicable permits for the beautification project from the city.

Budget Information

Budget Narrative: Describe how you arrived at the budget estimates.

First, we outlined our vision and objectives for the beautification project. Secondly, we requested and received proposals for the project vision and objectives. Lastly, upon receiving proposals, residents agreed to award the contract to a contractor already vested in our community, and who was able to meet our objectives for the beautification project and under the cost projection of other contractors.

Describe how you will meet your match:

We have already met our match through residents contribution to the project.
