Steve Tunnell, 685 Dawson Rd, Waxahachie, TX and Josh Trees, P. O. Box 886, Italy, TX representing B&P Enterprises presented request and answer any questions.

Vice-Chairman Strother asked if the process through the Board of Adjustments group raised any concerns on B&P Enterprises part in proceeding with the project and if there would be a fleet of trucks constantly moving in and out the area.

Mr. Trees stated that the City requirement for the gravel be of a type that does not produce dust would be more costly. There could be days when the equipment didn't move off the lot.

Chairman Brooks asked if B&P Enterprises discussed with the Board of Adjustments about using non-dust producing granite stone.

Mr. Trees stated they could use 57 stone; that granite wouldn't be of any benefit. It would be more economical to use asphalt milling.

Mr. Gore noted that the site plan will need to be modified by replacing the screening shrubs with a species that are a minimum of 6 feet in height. The shrubs that were specified on the plan typically will only achieve a mature height of 3 feet.

Commissioner Hamilton moved to recommend approval of Case 13-25 subject to staff's comments on the storage area being paved in granite gravel and the screening shrubs being a minimum of 6 feet in height. The motion was seconded by Commissioner Strother. The vote was as follows:
